lishers. Harper's Weekly, for Saturday next, Febuary 12th, will contain the following exceedingly interesting letter from the Rev. Mr. Milburn, describing an evening passed with the late Mr. Prescott, only forty-eight hours before his death. It contains many interesting statements relative to Mr. Prescott, and his surroundings, not hitherto known to the public. The letter is very but no matter on what subject you spoke easily and gracefully written, and leaves to him, his knowledge was at his fingers' upon the mind an agreeable impression of the amiable writer.

Messrs. Harper & Brothers :

on Wednesday last, I called to pay my resoft the celebrated geologist. "She is one of pects to Mr. Prescott. Forgetting his hours, the most charming persons I have ever seen," I reached the door at five minutes past one, he said, "When she married Sir Charles when I learned from the servant that, as she knew nothing of geology; but finding was his custom, he had left the house as the that her life was to be passed among stones. clock struck one, to take his daily walk. I she set herself to work to make friends of called again after tea, and was shown into them, and has done so to perfection. She the library, the gathering place for the is in thorough sympathy with all her husband family at that hour. This beautiful room the second floor, in the rear of the drawing. for her hand has written several of his books; rooms; it is, perhaps, thirty feet long, by and the delight and cheer of his whole life. twenty wide; at the western end there is a Unaffected, genial, accomplished, and delarge bow window, over which are suspended the swords worn by the grandfathers of is one of the rarest women you can meet. Mr. and Mrs. Prescott at the battle of Bunk- And, he continued, "you saw my friend, er Hill, Colonel Prescott commanding the American forces, and Mrs. Prescott's grand- he is! I had a letter from him only a day father, Captain Linzee, commanding the sloop Falcon, engaged in throwing shells upon the American redoubts. By the two St. Paul's, to the popular Sunday evening long walls of the room are arranged handsome cases, I think of maple, on which are shelved about 5000 volumes of well-selected and handsomely bound books. On the left side of the room, as you face the window, a door is painted in exact imitation of shelves with books, so that the visitor is startled when it is pushed aside for the historian to able and finished men of society I saw in enter. This door opens upon a stair-case, England. which leads to the room above, his workshop, as he called it, where his labors were performed. Surmounting the cases, at appropriate intervals, are busts; among them, as I remember, those of Scott and Byron, which he particularly prized. On the table joyed greatly." Replying in the negative Indeed, everything external bespoke the are many choice and exquisite volumes, to my inquiry as to whether he had read presentation copies from literary friends abroad and at home. One shell of the library, he told me, was its most expensive and important feature, as it contained the transcripts of documents in the Royal Archives of Simaneas and Madrid, made for him there, arranged in a large number of volumes handsomely bound; and which had then (for this was several years ago) cost him over five thousand dollars. The room throughout is furnished in perfect

of the gentlemen of Boston. both copies of originals, sent him by friends, the first from Mexico, the other from Spain.

Jan. 26. Mr. Prescott entered the library with a slower pace and heavier step than when I had been in the habit of seeing him years before; but his manner had the same unaffected simplicity and cordial warmth. Whether a stranger would have perceived it I cannot say, but my ear, sharpened by necessity, at once detected the work of paralvsie in an occasional thickening of the speech. I mean a difficulty in perfect articulation now and again. Among his very first inquiries was a particular one concerning the members of your own firm; your health, the state and prospects of your business, &c., manifesting the deepest interest; adding the remark that, through all the years of his business and personal connection with your firm, he had never experienced anything but the greatest kindness and consideration at your hands-that his enjoyment of your success was undiminished; and that he felt particularly grateful for the kindly mention which had been made of his personal affliction last year in your paper, and for the handsome notice of the third volume of his Philip II in the current

number of your Magazine. "He then proceeded to a mention of various mutual friends that had passed away since our last meeting; especially of the Hon. Abbot Lawrence and Francis C. Gray, Req. at whose dinner tables we had often met; and then of some of his surviving friends, especially of George Dicknor, Esq., who, he said, had shortened and brightened what, but for him, must have been many a concerning whose museum he expressed the liveliest interest. He remarked that the eyes of the latter had suffered greatly from his work, and that he would be sadly baulked in his prospects, but that he was fifteen volumes upon the shelf, but my able to find relief in manifold manipulating labors. This led naturally to speak of his the love which the country has ever shown own and my infirmity, which were about equal in degree ; and of the different lives for a man to know the had given so much

At his work—and a more valuable confor many years, to add volume after volume to the good of the people has addom been made. It is a rare thing for delight in the love of my friends, and their for its heart, the cauli-flower for its heart for its heart

such an institution to get a man so rarely appreciation of my labors.' qualified by taste, knowledge, and accomplishment to look after its interests with such energy and patience."

"Of Mr. Gray he observed: "Poor Gray! ever knew for variety and fullness of information, and a perfect command of it. He was a walking encyclopedia. I have seen many men who had excellent memories provided you would let them turn to their libraries to get the information you wanted; ends, and entirely at your service." "He then led the conversation to his Eng-

lish friends, to some of whom he had given Gentlemen: Happening to be in Boston try. He first spoke of Lady Lyell, the wife me letters on my recent visit to that counresearches and works; is the companion of lightful to an almost unequalled extent, she Dean Millman, What an admirable person

"Little did I think that the hands which so warmly grasped mine as he led me down the stairs would, ere eight-and-forty hours are past, be cold and stiff in death. Peace I think he was the most remarkable man I to the memory of one of the sweetest and noblest men that ever lived!

"Yours, very truly, "WILLIAM II. MILBURN."

Henry Junius Nott.

A wriiter in the Clarenden Banner, alludng to Dr. Laborde's forthcoming history of the South Carolina College, expresses the hope that the late President Henry may occupy a conspicuous place in the picture. It could not be otherwise, with one whose position was so prominent, and whose abil ies were so fully recognised by cotemporaneous scholar and co-'atorers. Dr. Henry was steemed in the palmy days of his manhood the "back-bone of our State College; (we use the language of one who graduated under him; ) and of course his rank in the list of our College Presidents can but be an exalted one.

There is another name also upon that list, which we trust will be embalmed in choicest terms and placed in the most clasic niche of his literary gallery. It is that of the lamented Henry Junius Nott-a name which is, after the fashion of Boston houses, on his journeys; oftentimes his amanuensis, his lecture-room come crowding upon us, until we again see his pleasent face, and hear his persuasive voice, and drink in his words of chaste instruction and affectionate

> It was in the winter of 1835-6, that the outh Carolina College fell upon the darkest and most critical hour of its existence. What the causes were which led to this strange depression, it is not ours to inquire; but it was certainly a depression which approximated ruin. The State seemed to have ithheld itsfostering liberality, and the peode of the State to have become almost obrious of the institution which had already done so much towards promoting the fair fame of South Curolina. The two old College buildings (North and South) were dilaj idated without and defaced within, and no helping hand stretched forth to stay the progress of decay. Through the chilly nights of that ominous writer, one might have walked up and down the College Campus again and again, and scarce have found a gray morn, some two or three dozen studnts could have been seen converging towards the chapel from various points, like seattered sentinels coming to the call of revellie.seen him. He did me the favor some time Even the old college bell that summoned them, had become cracked and dissonant, as downfall of the South Carolina College,the Dean's book on Words, etc., he said, It was at this time that Hery Junius Nott "They shall be the very next book I read." ste od bravely at his post of duty and assis ted more than all others in keeping perpet-"isn't it? What a hearty and noble people burned in the bosom of his Alma Mater. they are, and how an American's heart A native of the State and an alumnus of warms towards them after he has been the College, his virtuous instincts were all there once and found them out in their hos- alive to the necesities of the hour. Chosn chairman of a faculty of four professors, he "I said: "Mr. Prescott, arn't you coming ty that might tell in the cause of the College. spared no toil and neglected no opportuniwithout conedmning in set phrases the of-

And thus did he persevere in his labor upon the old. With modesty equal to his million dollars. Suppress this, and you merit, he at once fell back into his position of professor. Yet it was not the less true, the chaplet of a victor. Thirty men there are, (or should be, had not some of them gone hence forever,) who can recognize the est ornaments of our College, whether as a man or as a professor. These will join us in a tear for his melancholy fate. These the shock which his system had received will agree with us in saving, that his name should be written with letters of gold on the fairest page of the book of the College:-

Edgefield Acvertiser. JOKE ON THE GOVERNOR .- The Raleigh giraffe relates the following :

About twilight the other evening, just as our Governor was passing down street to his residence, a stranger, rode up to the sidewalk before one of the stores, and bawled out to his Excellency:

"I say, stranger, won't you be so kind as of Philip, as I am yet able to work two or to hold my horse while I step in here and do a little trading?"

> "Why, my dear fellow," said a bystander, "that is Gov. Ellis."

"That? He the Governor?" "Yes."

"Well, who cares if it is? Didn't I vote for him ?"

A NOTE WORTH KNOWING ABOUT PEACH Soils.—Rivers the well known fruit culturist observes in the latest edition of his cataogue, that having poticed that his peach and nectarine trees did best where planted close to a pathway where the soil was well trodden down, he has found that the best preparation for peaches and nectarines, is o give a poor and exhausted soil a good dressing of rotten dung and clayey loam, equal parts, dug in two feet deep. When trees are planted, which should be in spring, the ground all over its surface should thoroughly rammed down with a wooden paving rammer. After this a dressing of happiness as he had done by his books, he said that it was his own truest happiness to trust that he had been able to confer it. He said he hoped to live to finish Philip, thich hen doing perhaps better for the community and posterity by devoting himself for many be taken in good by Land, God bless you, F. Presently part to the interests of the Boston of the Boston of the work—and a more valuable confer its post of the say may your life be spared for many years, to add volume after values.

## SCIENTIFIC AMERICAN. PROSPECTUS.

Volume Fourteen begins September II, 1858

Mechanics, Inventors, Manufacturers and Farmers.

THE SCIENTIFIC AMERICAN has no v reached its FOURTEENTH YEAR, and will outer upon a New Volume on the 11th of Sep-ember. It is the only weekly publication of the kind now issued in the country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechani-cal and industrial worlds, as to please and in-struct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to muke any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.-If the Inventor wishes to know what is going on in the way of improvements-if the the way of improvements—if the anufacturer wishes to keep posted with the times, and to employ the best facilities in his business—it the an of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mow-ers, and a thousand other machines and appliances, both of peace and war—all these desiderata can be found in the Scientific American, not elsewhere. They are here presented in a re-liable and interesting form, adapted to the comprehension of minds unlearned in the highest branches of science and art. Terms of Subscription.—Two Dollars a Year,

or One Dollar for Six Months,
Club Rates.—Five Copies, for Six Months,
\$!; Five Copies for Twelve Months, \$8; Ten
Copies, for Six Months, \$8; Ten
Copies, for Six Months, \$8; Ten
Copies, for Six Months, \$6; Ten
Copies, Twelve Months, \$22; Twenty Copies, Twelve Months,
\$88, in advance.

22" Specimen copies sent gratuitously for inspection. Southern and Western money, or ostage stamps, taken for subscriptions.

Letters should be addressed to MUNN & CO., 128 Fulton st, New York.

Messrs. Nunn & Co, are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements.

ABBEVILLE AND WASHINGTON STAGE LINE

Abbeville to Washington. THE PROPRIETOR of this well established

Line takes this method of informing the public that he has changed his Schedule, for the convenience of passengers. The Stage will be detained at Abbeville Court

House, until half past 9 o'clock, on MONDAY, WEDNESDAY and FRIDAY mornings, affording an opportunity for passengers on the morning train from Greenville to go directly through to Washington, Ga., the same day, con-necting with the train at Washington, for Augusta, Montgomery, Ala. The passengers detained a few hours in Washington, Ga. The Stage will leave Washington, Ga., on TUESDAY, THURSDAY and SATURDAY

## The Line has been refitted with a splendid FOUR-HORSE COACH.

good Teams and an experienced driver. Passengers from all points above Newberry, going West, will find that they can reach any point west of Atlanta in exactly the same time, and with \$5.00 less expense than by way of Branchville.

To Proprietors rchitects,

Practical House Painter. Practical House Painter,
WOLLD inform the inhabitants of Abbeville, and the public generally, that he has permanently located at Abbeville C. H., for the purpose of pursuing his profession. From a long experience in Europe, and many of the principal Towns of America, combined with a stendy attention to business, he flatters himself that he will be able to give entire satisfaction to all who wish to have good House Painting done, and will favor him with their, orders. He feels himself competent to finish all

ces &c., finished in imitation of Marble. Rooms Papered, Paneled with Oak Paper, and varnished in the best style.

buildings glazed at moderate prices.

He will also keep on hand and for sale all kinds of Mixed Paints in quantities to suit pur-

Rooms. He will paint signs on glass or wood, at short notice.

23" Office in the Wooden Building adjoinng the Marshall House. May 12, 1858.
